Questions

1. Documentation

1.1. How can I help write documentation?

This project uses [Apache Forrest](#) to generate documentation from XML. Please download a copy of Forrest, which can be used to [validate](#), [develop](#) and render a project site.

2. Message of the day (MOTD).

2.1. How do I enable MOTD?

There is example MOTD code in `/src/documentation/skinconf.xml`. Enable this and make sure the motd-option pattern URI points to the page or pages you want the message to appear.
